Subject: Microsoft Settlement

Dear Sirs,

I am writing to you to voice my objection to the Proposed Final Judgement in the U.S. vs. Microsoft anti-trust case. I believe that the Proposed Final Judgement does NOT properly address Microsoft's anti-trust violations and anticompetitive practices. I strongly feel that Microsoft's monopoly should be terminated and future such monopolies be prevented. A monopoly can be devastating for the development of a fast-paced industry, such as the software industry. Therefore, I am concerned with the Proposed Final Judgement and hope that you will reconsider the ways in which you approach the Microsoft case.

Sincerely,

Anna Angelova
